

THE MAYFIELD MESSENGER

FAMILY LIFE

Medical ID Bracelet Proceeds To Benefit Living Beyond Breast Cancer

Medical ID Marketplace (www.hopepaige.com) mixes fashion and style with function and purpose as one of the foremost designers of contemporary medical emergency bracelets and awareness jewelry. They've created fashionable medical accessories that easily blend in with everyday pieces and will ONLY stand out to medical professionals in case of emergency. Each bracelet can be customized with an engraving on the back to alert EMT's of medical conditions. EMT's are trained to look at wrists and around the neck for items like this.

In particular, their Pink Aluminum Design Bracelet (\$19.99 at hopepaige.com) features a breast cancer ribbon charm. The bracelet is stainless steel, and will fit up to an 8 inch wrist. You can hook a lobster claw onto

another link for a smaller fit. The custom engraving goes on the back of the plate (up to 3 lines with 22 characters each).

For all purchases of this bracelet made in October, 50% of the proceeds will be donated to Living Beyond Breast Cancer (www.lbbc.org).

[About Medical ID Marketplace, a Hope Paige Company](#)

Medical ID Marketplace mixes fashion and style with

function and purpose as one of the foremost designers of contemporary medical emergency bracelets, awareness jewelry along with licensed designs. These stylish medical emergency bracelets serve as a more desirable option than the typical medical bracelet to the millions of people that are required to wear them. Medical ID Marketplace is now increasing the business to include licensed jewelry from national corporations and securing

large government promotional item contracts; Medical ID Marketplace has grown quickly since its inception. For additional information, please visit www.hopepaige.com.

[About Living Beyond Breast Cancer \(LBBC\)](#)

Living Beyond Breast Cancer, founded in 1991, is a national nonprofit organization dedicated to empowering all women affected by breast cancer. As a national education and support organization, LBBC's goal is to improve a woman's quality of life and help her take an active role in her ongoing recovery or management of the disease, regardless of educational background, social support or financial means. For further information on Breast Cancer and LBBC, please visit www.lbbc.org.
