

Keeping it **safe**

If your little campers are diabetic, at risk for allergic reactions or face other medical conditions, the anxiety of camp may start to overshadow the excitement of the experience for both of you. Put those concerns to rest with medical ID bracelets from Hope Paige. Their bright and cheery designs make these bracelets look like stylish accessories to other campers, but their distinctive colors alert medical professionals to specific conditions and they can be engraved with emergency medical information. These fun and functional medical bracelets are available at select Kroger pharmacies and at hopepaige.com.
